

NEW BUS ROUTES are shown above that go into effect when the new Western Exclusion Area is opened. Each bus will operate approximately every 10 minutes. The broken line shows the Eastern bus route, which

turns near the Cafeteria. Riders wishing to go further West in the plant will only have to walk a few steps to board the Western-bound buses. Triangles show bus stops of both the East and West portions of the plant.

The solid line represents the bus route in the Western Exclusion Area. The new Western Exclusion Area is set for opening within a few weeks. The two new bus routes replace the existing single loop.

Us Y-12ers'd Rather Switch Than Fight!

**Badges, That Is!
Exchange Coming**

Jeanne Cothron

Yes, "Us Y-12ers would rather switch badges (next week) than fight" established procedures.

New Spring-colored badges (yellow borders which match the forsythia) will go up in the racks at 11 p.m. next Tuesday, March 31. The quarterly badge exchange is made at the end of every three months' period, so that our take home badges may be monitored for radiation.

The second-quarter badges will remain in the self-service racks until 11 p.m., Sunday, April 12. After that employees, on vacation, ill, or off for some other reason, will not be admitted to the plant with the old solid blue badge. He must go to the Badge and Pass Office, Building 9704-2, and pick up his new identification badge.

The new badges are arranged in badge number order in the racks at each portal.

Good Friday Is Official Holiday

Friday, March 27, is Good Friday. On that day the entire world of Christendom observes the crucifixion of Christ. The long dispute over the date for the celebration of Easter was finally settled by the first Council of the Christian Churches at Nicea, Asia Minor, in 325 A.D. The holiday has been observed on the first Sunday following the 14th day of the Paschal Moon. The Paschal Moon is the first moon whose 14th day comes on or after March 21. (Mohammadens celebrate Good Friday as the day of Adam's creation. To the Jews it is the beginning of the Passover.)

No Y-12 employee will be required to be at work Friday except those whose presences are necessitated by the security of the plant or continuous operation.

UCC Purchases Bed Mattress Outlet

A newly organized subsidiary of Union Carbide Corporation has purchased the assets of The Englander Company, Inc., Chicago, a producer of mattresses and other bedding products, Birny Mason Jr., Union Carbide president, has announced.

The new subsidiary will operate under the present Englander name and will report to Union Carbide's Fabric and Fibers Department. Day-to-day operations will be the responsibility of Englander's plant managers and sales managers.

Englander produces inner-spring, rubber latex and urethane foam mattresses. According to Mason, the corporation's primary interest in entering the bedding market is to increase growth potential for the bedding industry by introducing recently developed chemical technology to the manufacture of bedding products — for example, the use of non-woven fabrics and urethane foams.

W. L. Jones Retires From Dispatching

'Pop' Is Native To This Section

W. L. "Pop" Jones

March's only retirement in Y-12 is Willie L. Jones, material handler in the Dispatching Department . . . or "Pop" as he is generally known.

The retiree is a native of Carthage, Tennessee, and has lived in and around this section all of his life. In his early life he worked on his father's farm near Goinsville. From 1926 until 1949 he worked with the Tennessee Railroad Company, Emory Gap. He also worked with the Empire Lumber Company, Harriman, before coming to Y-12 July 11, 1952.

The genial Jones lives at Route 1, Harriman, surrounded by most of his family. He is married to the former Betty Ray. They have three sons, William, Luther and Howard, all in Roane County . . . also daughters Myrtle Robbins and Lovie Mae Phillips, also in Harriman, and Wilma Edgemond, Dothan, Alabama and Betty Wilson, Albany, Georgia. There are 21 grandchildren and four great grandchildren!

His more than one acre lot will see a lot of truck gardening in

Continued on Page 4

Western Exclusion Area Is Effective Within A Few Weeks

Arrangements for the Western Exclusion Area are nearing completion and the new area will be ready for operation very shortly. The new alignment combines the 9212 complex into one area with Buildings 9206, 9204-2, 9201-4, 9201-5, 9204-4 and auxiliaries. It is expected that the consolidation will strengthen protection of classified information and materials in the area and increase efficiency of operations. Arrangements elsewhere in the plant will remain unchanged.

As in the past, supplemental badges will be used for employee and visitor access. For the new area, only one supplemental badge will be necessary. Each individual can control the location of his supplemental badge by leaving it at the Bear Creek, West, Central or Firehall portal upon exit from the area. The Bear Creek and Firehall portals accommodate both pedestrian and vehicular traffic, while the West and Central portals provide for pedestrian traffic only.

Visitor Badges

With a few exceptions, supplemental badges for nonemployees will be of distinctive design. The design is to alert employees to the fact that access by the wearer is limited to that portion of the area and to information for which the badge was approved.

Employee and visitors will be issued supplemental badges

only if access is necessary for official purposes. Periodic reviews of badge lists will be made to determine the need for continuing access. When determined that official duties do not require access, the supplemental badge will be removed. No badge will be issued for the purpose of merely "passing through" the area.

Individual Responsibility

Each employee has security responsibilities which have been emphasized verbally, in security agenda for department meetings and in plant bulletins. Posters, distributed plant-wide on a quarterly basis, serve as reminders of security obligations. The application by all employees of the security principles of "need-to-know" and Administrative Control is expected. Administrative Control is one of the best methods devised for employees to execute their security responsibilities. Each employee is responsible for the security of the area where he works and should lend his full cooperation in protecting the classified interests therein.

Instrument Society Will Hear ORGDP's J. E. Rowe

The Oak Ridge Section of the Instrument Society of America will meet next Wednesday, April 1, in the Green Room of the Ridge Recreation Hall.

Featured speaker will be J. E. Rowe, manager of Central Data Processing, Oak Ridge Gaseous Diffusion Plant. He will present a film on "Solution to Computer Bottlenecks."

The meeting will begin at 8 p.m., and is open to all ISA members and guests.

TINY, TINY ATOM

An atom is the smallest particle of an element. It is so small that it takes billions of them to make a speck barely visible to the naked eye.

Price Daughter Will Attend Girls' State

Donna Represents
Karns High School

Donna Price

Who said the younger generation was getting soft and doing nothing? They just haven't looked around much these days. Take Donna Price, for instance, the daughter of C. J. Price, Research Services.

Donna will represent Karns High School at Girls' State, Murfreesboro, the first week of June. Delegates are chosen on the basis of their qualities of leadership, general ability, scholarship and personality. At Girls' State, she will hold elections, carry on the government business, and have an athletic and recreational program. Girls' State is sponsored by the American Legion.

The Karns High junior is an A honor roll student, has been a cheerleader for two years, was elected Class Favorite for the past two years; is treasurer of the junior class, belongs to the Pep Club, Christian Students Union, secretary to the Beta Club and holds the office of Worthy Advisor in the Rainbows, at Beaver Ridge Lodge.

Women Can And Do Almost Anything!

American women nowadays are working at literally every job under the sun—and some even underground (the last Census turned up 266 lady coal miners). Women are holding down jobs in every single one of the 479 occupations in the Census Bureau's most detailed list, which includes some fairly unlikely ones. At last count, for example, the United States had 101 women blacksmiths, 85 locomotive engineers, 301 stevedores and nearly 1,000 female "lumbermen, raftsmen and woodchoppers."

According to press releases one of the presidential aspirants in the New Hampshire primary spent more than \$175,000 . . . and got only 20,000 votes. That's \$8.40 per vote. Too bad Tennessee doesn't have presidential preferential primaries. But then our votes are not that expensive.

In the precincts of Y-12, it's told in

DEVELOPMENT

A parade of new babies greet the Spring Season in Y-12. First off, it's a boy for the **Jerry Caddens**. (He's in Metallurgical Development.) Little Jeffrey Wade Cadden was born Tuesday, March 17, at the Oak Ridge Hospital. He has an older sister. Too bad his name wasn't O'Cadden, being born on St. Patrick's Day like that!

Bachelor: A man who enjoys life, liberty and the happiness of pursuit.

ENGINEERING

General Mechanical Engineering has **Louise Scoggins** back home after a stay in the Oak Ridge Hospital. Everyone hopes Louise is feeling much better these days.

The **J. N. Abeles** welcomed a daughter at Fort Sanders Presbyterian Hospital, Saturday, 9 p.m., March 14. She weighed six pounds, three ounces.

TECHNICAL SERVICES

Carla Jean Brooks

Physical Testing's **Carlos Brooks** is bragging about this bundle of joy (and who wouldn't?) Little Carla Jean Brooks was born December 17, 1963, weighing seven pounds, one and one-half ounces . . . has gained 13 pounds since that time, however. This is the first child for the Brookses. Pretty, isn't she?

A bachelor is often a miss-informed man.

SPECIAL PROJECTS

Brenda Kay George

All dressed out in fancy bib and tuck is Brenda Kay George,

five and one-half months old daughter of **Pauline and Jimmy George**. Jim is in Special Projects. Brenda doesn't mind our telling her age . . . but wait a few years . . . then we wouldn't dare!

The Beta Four crowd is congratulating the **George Dreviks**. A new son arrived on March 18 at Oak Ridge Hospital . . . six pounds, 14 ounces. Mother and baby doing fine . . . papa in foul shape.

The **George McGown** family plans to spend Easter week-end visiting George's brother in D. C. Since he is a Senate employee, George hopes to see Congress in action.

Get well wishes to **Connie, Alex Varlan's** wife, who is recuperating in Fort Sanders, following surgery . . . also to **Penny, Dave Sisson's** wife, who has been a patient at Oak Ridge Hospital.

No wonder **Charles Maberry's** buttons are about to bust. He's driving a new Fooooooord station wagon.

Seein' must be believin'. You seldom see anyone with an ear to the keyhole.

METAL PREPARATION

Ex-Chemical Division reporter **Thelma Bradshaw** has been off ill . . . is back at work now and sends news as follows from the newly christened division:

Sympathy is extended to **John Chamblee** whose mother died recently in Kosciusko, Mississippi.

Best wishes to **Connie O'Neil** who is off ill . . . **J. S. Parton** has been dispensing justice via jury duty.

Mabel Butcher and husband have completed their boat dock on Watt's Bar, and welcome all boat-owners to come in and dock there . . . (yuk, yuk!) . . . **Henry Swallows** recently made a business-politics-pleasure (that's some combination) trip to the nation's capitol.

The **Spence Wallace** family welcomes its first grandchild . . . a boy, Samuel Spence Wallace, son of Bill and Judy Wallace.

Shoving off from Miami, it was a glorious cruise to Jamaica for the **John Reces**.

Lena Jefferies is ill . . . best wishes to her.

Easter long-week-enders find **Eleanor and Kirby Duke, Jim and Dot Shelton** visiting Eleanor's son in Mobile, Alabama.

Elena Messamore and daughter visited another daughter in Memphis.

Off to Chattanooga were **Del and P. C. Goins** . . . **Margaret and Homer Baker** went to Detroit.

Gardening, then a trip to Ohio occupied the vacation plans for **E. R. Daugherty**.

Zola and Al White have three weeks vacation in which to occupy their newly acquired Florida mansion.

Lon Dunsmore vacationed, but didn't say where.

Best wishes to **F. A. Wells**, ill. Sympathy is extended to the **Roger Brotherton** family . . . Mrs. Brotherton's mother died recently.

INDUSTRIAL RELATIONS

Security smilingly welcomes back **Bill Davis**, after his recent surgery. Bill is hale and hearty

A PARTIAL LIST OF LUCKY WINNERS at E, F, G, H and J Shift's recent party are seen above. In the top row from left are Joe Keen, son of Harry, Uranium Chemistry; Pat Rader, son of Daniel, Shift Superintendents and Utilities; Corinne Miller, daughter of L. W., Dimensional Inspection; Joan Wallace, wife of R. P., Dimensional Inspection; Willie Mae Braden, Cafeteria; Mrs. P. C. Dabbs, husband in Guard Department; Brad Brewster, son of Carl, Medical; Paul G. Parker, Quality Assurance; and Martha Ray, whose husband Winfred is in Beta Two Forming.

Shift Combo Family Party Had Standing Room Only! . . .

The recent party held by the E, F, G, H and J shift folks was a big hit . . . even standing room

now, even though he is a little lighter.

Vacationing from the Fire and Guard Departments are **L. F. Ellis** and **C. C. Evans**. Also in parts unknown is **J. A. Margrave**.

Best wishes to **M. L. Cooper** and **O. C. Beatty**, ill.

The reason for the expression 'poor loser' is . . . whoever saw a rich one?

signs went up early in the evening. This event ushered in a new committee for the combination shift activities. The committee consists of P. C. Dabbs Jr., R. P. Wallace, T. S. Higgins, and Carl Brewster, a repeat member from previous committees.

A total of 18 prizes were awarded lucky card holders. The party was held in the Green Room of the Ridge Recreation Hall.

The committee also set a ham shoot for the week-end of March 21.

Y-12 Rebs Defeat Atoms In Basketball

Remain Hopefuls In League Race

Basketball action began in league play last week in a low-scoring duel between Y-12's Peons and ORGDP's Hot Shots. The Peons won their first league victory 30 to 28. Mac Wright hit the winning basket in the closing seconds of the close contest with a beautiful jump shot.

Monday's second game could be called "What happened to the Atoms?" The high-ranking Y-12 team dropped their teeth, losing to the ORNL Independents 81 to 36 in as sloppy a game as the fine team ever played. It was just a matter of how much with Goolsby and Stonecipher hitting at every minute of the game. Carlos Brooks got 14 points (Bill Lanter got a black eye.)

Fearless Five Win

Two ORNL teams collided Monday, the Fearless Five defeating Analytical Chemistry 51 to 33. The tilt remained close until the fourth quarter. Finch and Goetsch were high-men on the boards with the Five, taking 14 and 15 points respectively.

Monday's action closed with another close one . . . as the ORNL Metals and Ceramics team took the ORGDP All Stars 46 to 46. M&C managed a small lead at the end of the third quarter and held on to the end. The All Stars' Martin kept his team in there with his jump shot and aggressiveness on the backboards. **Rebs Down Atoms**

Y-12's Rebs came in Wednesday night showing their nettle against the Atoms, downing them 55 to 42. Jim Pugh took 24 big points for his winning squad. Don Mahaffey had 17. Carlos Brooks took 11 for the losers . . . Jim George and Bob Culton took 10 apiece.

ORNL's Metals and Ceramics team took their second victory of the week, downing their fellow plantsmen, Analytical Chemistry. Jim Carter took 14 for the winners . . . Atherton had 12. Tom Kress took 14 for the losing squad.

Peons Lose Again

ORNL's Cell Four ended the week's action by clipping Y-12's Peons 27 to 17. Ron Lenius scored 13 for the winners. Don Forrester and Joe Crunk took six each for the losers.

League standings follow:

Team	W	L
Rebs, Y-12	7	1
Independents, ORNL	7	1
Metals & Ceramics, ORNL	6	2
Fearless Five, ORNL	6	3
Atoms, Y-12	5	3
All Stars, ORGDP	4	5
Analytical Chemistry, ORNL	2	6
Hot Shots, ORGDP	2	6
Cell Four, ORNL	2	7
Peons	1	7

Slo-Pitch Players, Call Recreation!

With the springing of daffodils and swallows on the wing, it's time again to think of Slo Pitch Softball!

Managers or prospective team captains should contact the Recreation Department, telephone extension 7109, and enter that team now. Information will be needed on the name of the team, manager and assistant manager's names, their building numbers and telephone extensions.

It is hoped that some practice sessions will be under way by April 15, and league play should begin between May 10 or 20.

An organization meeting will be called later by Recreation.

Patton Leads Skeeters Firing Second Round

The Spring Skeet League, now two firings old, scored again on March 15 . . . making at least one-quarter of the season passe.

Finis Patton took high point score with a 48. He was followed by K. W. Bahler, F. G. Welfare and M. C. 'Red' Wiest . . . all with a 46.

Standings follow:

CLASS AAA	
K. W. Bahler, ORGDP	46
Fred Welfare, Y-12	46
J. A. Swartout, ORNL	45
W. E. Brundage, ORNL	44
Bob Powers, Y-12	41
W. H. Davy, ORGDP	40
J. M. Case, Y-12	39
CLASS AA	
F. S. Patton, Y-12	48
M. C. Wiest, Y-12	46
Charlie Asmanes, Y-12	43
M. L. Bailey, Y-12	43
Carl Brewster, Y-12	39
Joe Levin, ORNL	37
J. S. Steward, Y-12	35
Derek Walton, ORNL	*21
CLASS A	
Newt Hamby, Y-12	42
R. H. McNabb, Y-12	39
H. D. Willis, ORNL	36
R. A. Allstun, Y-12	33
J. P. Murray, UCC-ND	31
Wally Davis, ORGDP	*13

*Incomplete results.
The Skeeters third firing will take place next week-end, April 4 and 5.

Bumpers, Markers Vie For Classic Top

The Classic League for Y-12 bowlers looks like it will go right down to the wire now . . . a mere one-point separates the Bumpers and the Markers. The Markers moved up with a four-point win over the Rippers . . . the Bumpers took the Wasps for three.

Other wins featured the Smelters in a four-pointer over the Cubs . . . and three were taken as the Has Beens out-rolled the Screwballs, the Wolves downed the Swingsters, the Playboys licked the Rebels and the Splinters defeated the Tigers. The All Stars and Eightballs shared two points each.

Nelson Tibbatts, Rippers, ripped singles right off the wall, taking a 235 scratch, and 267 handicap. J. E. Morgan, Smelters, took high scratch series of 579 and Tibbatts returned to the boards with a 650 handicap total.

The Bumpers captured scratch honors, rolling 941 in singles, 2613 in series. The Bumpers took handicap highs, posting a 1055 in singles, 3018 in series.

League standings follow:

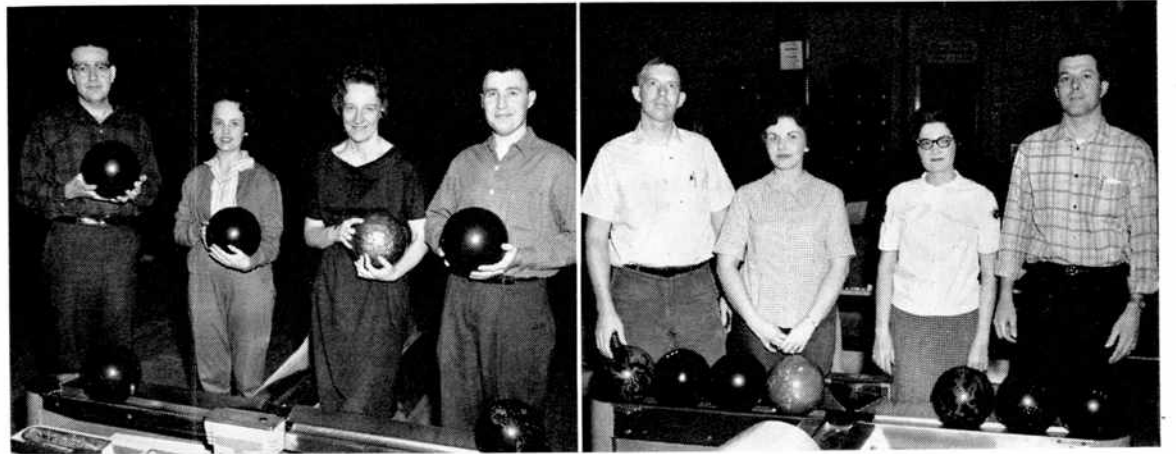

Team	W	L
Bumpers	39	13
Markers	38	14
Has Beens	31	21
Swingsters	30	22
Wolves	28	24
Playboys	27	25
Smelters	26	26
Screwballs	25	27
Splinters	25	27
Tigers	24 1/2	27 1/2
All Stars	24 1/2	27 1/2
Rippers	24	28
Wasps	22	30
Rebels	20	32
Eightballs	19	33
Cubs	13	39

Rifle Team Falls In Fourth Shoot

In the fourth match of the Spring Season, the Y-12 Rifle team hit a slump and fell to the superior marksmanship of both the ORNL and the Independents.

Jerry Holcombe took top honors with a commendable 283 scratch score and high offhand over Bob Powers who also fired a 283 scratch.

Standings will be included when handicaps are established for part of the riflemen.

TWO FIGHTING TEAMS IN Y-12'S MIXED LEAGUE are the Scrappers and Phantoms, shown here, prior to a recent alley-fight. At left are the Scrappers, which are made up of Captain Pete Reke-meyer, Carolyn Savage, Linda and Charlie Montgomery. At right, from left, are the Phantoms, composed of Captain Hubert Richards, Lucy Parker, Niece and Al Wyrick.

Cliff-Hanging Still C League's Theme

Big Five Maintain A One-Point Lead

The C League race remained close after last week's pin action as the Big Five retained the cliff hanging number one position by virtue of winning one point from the Shud-A-Beens. The Rodders rolled into second place by taking three from the Hookers.

Other triple point victories, in addition to those of the Rodders and Shud-A-Beens, were scored by the Lucky Strikes over the Parbusters, Sunflowers over the Five Roses, and the Hi-Lifers over the Strikers. The only sweep of the week was scored by the Rounders over the Screwballs.

Harry Keen of the Parbusters marked the individual scratch singles with a 221 game, and high handicap singles with a 246. C. R. Lively, Rounders, rolled individual high series of 560. J. C. Bryant, Rounders, rolled individual handicap series of 627. The Sunflowers rolled team scratch singles with an 881, the Parbusters team handicap singles with 1002, the Rounders team scratch series with 2572 and the Shud-A-Beens with a 2889 team handicap series.

STANDINGS

Team	W	L
Big Five	29	19
Rodders	28	20
Five Roses	27	21
Shud-A-Beens	27	21
Rounders	27	21
Hookers	26	22
Lucky Strikes	26	22
Sunflowers	25	23
Strikers	24	24
Hi Lifers	23	25
Screwballs	13	35
Parbusters	13	35

Tennis, Anyone?

Those interested in entering the Y-12 Tennis League should call Recreation, extension 7109 in order that plans may be finalized for the season opening of May 15th-20th. If there is enough interest shown, there is a possibility of a men's doubles league in addition to planned singles play.

It is hoped, in addition to the men's league, enough ladies will be interested to form a league for them. Call in soon and let's get underway.

"The safety director used to nag me, but I figured he was just some kind of nut!"

Cool Cats Stretch Slight Lead In Mixed League's Final Weeks

The Cool Cats stretched their slight lead in the Y-12 Mixed League, bowling against the Goofers last week. The Cats took three points. The only four point win of the week went to the Scrappers over the Phantoms. The Alley Cats did take four, however, via the easy route of rolling blind. The Pin Plasters plastered the Ghosts for three.

Irene Carmack, Cool Cats, took single scratch high, posting a 164. Eleanor Charpie, Alley Cats, handicapped high in singles with 212. Irene returned to the female boards to take high series, posting a 459 scratch, 570 handicap. On the masculine side, A. V. Bible, Pin Plasters, took high single scratch of 177, and handicap of 221. Charlie Gillihan, Ghosts, rolled high in series scratch counting, taking a 463 . . . and Jim Young, Cool Cats, posted a handicap series score of 593.

The Cool Cats swept team honors in their rolling, taking singles of 666 scratch and 818 handicap. Their series scores were 1847 and 2303.

League standings follow:

Team	W	L
Cool Cats	31	13
Ghosts	27 1/2	16 1/2
Goofers	27	17
Phantoms	23	21
Pin Plasters	23	21
Alley Cats	22 1/2	21 1/2
Scrappers	22	22

Beavers Take Volleyball's Second Slot

Y-12's Beavers went to the finish-line of the Volleyball League, tied with the ORNL Set Ups. Both teams had won 19 games, lost two. A play-off, however, gave the crown to the Set Ups. They took the first two 16-14, and 15-8. No third game was required. The Beavers do keep runner-up honors, as they won the second slot in the first half also.

A tournament will be set for next week.

In final week play other teams saw the Scrubs, ORNL, defeat the Champs, also from ORNL for three games 15-9, 15-8 and 15-12. The Six Pots, ORNL, took three defeats from the Beavers 15-0, 15-11 and 15-0. Two ORNL teams, the Bums, and Old Men scratched it out, the Old Men winning 15-6, 15-5 and 15-2. The champion Set-Ups defeated Y-12's Eagles for three 15-1, 15-3 and 15-7.

Final standings follow:

Team	W	L
Set-Ups, ORNL	21	2
Beavers, Y-12	19	4
Old Men, ORNL	15	6
Champs, ORNL	12	9
Eagles, Y-12	9	12
Six Pots, ORNL	6	15
Scrubs, ORNL	4	17
Bums, ORNL	2	19

Alley Bees Gain E League's Topspot

D. Bennett Almost Sweeps The Boards

The E League for Y-12 bowlers finally drew a leader last week, as the Alley Bees took over the helm. They twisted four points away from the Pintwisters. Another four pointer went to the Ten Pins over the Pinquins. The Cannon Balls wrestled three from the Foursquares . . . thus dropping one point out of first place in league standings.

Dwayne Bennett, Foursquares, took almost all the individual honors. His singles of 213, 235 were high and his scratch series of 541 was high also. Ralph Gibson, Alley Bees, captured high series handicap count, bowling a 632.

The Cannon Balls took singles honors, with 645 scratch, 807 handicap. Series honors went to the Foursquares with their 1819 scratch and to the Alley Bees with their 2234 handicap total.

League standings follow:

Team	W	L
Alley Bees	26	14
Cannon Balls	25	15
Ten Pins	24	16
Foursquares	18	22
Pinquins	14	26
Pintwisters	13	27

Matheney Tops Pistol League In 11th Shoot

The "hot shots" in Y-12's Pistol Match number 11 were R. L. Matheney, first place, with a scratch score of 258 and G. L. Davis moved into second place with a 249. A big 246 for W. A. Gregor brought him the high handicap score of the night. All final standings for awards are still open with four more sets to shoot.

STANDINGS

Firer	Scratch	H'Cap
C. V. Terry	236	288.173
R. L. Matheney	258	288.345

Dr. T. A. Lincoln Is Health Physics Guest

**ORNL Medical Director
At Society Tomorrow**

Dr. T. A. Lincoln

The regular March meeting of the East Tennessee Chapter of the Health Physics Society will be held tomorrow, March 26, at 7:30 p.m. It will be held in the ORINS Medical Division Conference Room, East Vance Road, Oak Ridge.

Thomas A. Lincoln, M.D., medical director of Oak Ridge National Laboratory, will speak on "Decontamination of Radioactive Materials from the Skin."

Dr. Lincoln received a BA degree from Macalester College, St. Paul, Minnesota, and an MD from the University of Minnesota Medical School, Minneapolis. He came to ORNL in 1951 and in 1953 assumed the responsibility as medical director. He is a member of the Occupational Medicine section of the American Board of Preventive Medicine, a Fellow and District Counselor of the Industrial Medical Association and served as the first president of the Tennessee Industrial Medical Association.

HPS members also plan to hear a report of the program committee, plans for a field trip to Huntsville, Alabama, plans for a summer outdoor social, a special wives' meeting, and information regarding two education series.

All HPS meetings and programs are open to members, guests and interested individuals. A special invitation is extended to all whose work is related to Health Physics either directly or indirectly. This particular program will be of special interest to many in the field since Dr. Lincoln gave an address similar to this one at the Fourteenth International Congress on Occupational Health in Madrid, Spain, a few weeks ago.

Safety pays tremendous dividends.

Congratulations to the following Y-12ers who celebrate important milestones with Union Carbide Corporation within the next few days.

ALPHA, BETA, GAMMA

Radiation is the emission of particles or electromagnetic waves from atoms undergoing internal changes. The three principal types of radiation are alpha, beta and gamma.

PROJECT ENGINEERING females gathered recently to honor Doris Thomas who left for an appointment with ole Doc Stork. The usual coffee, good wishes, and gifts were in order.

THE GOOD OLE SUMMERTIME will soon be enhanced by swimming pools and a new model is added above. This one sets up 90 per cent faster because its interlocking steel beam rails and uprights slide together without nuts and bolts. The pool is manufactured by Urb Products Corporation, Brooklyn, New York, and features Union Carbide's heavy gauge Krene vinyl liner.

Mark Potter Named Roane's Mr. Citizen

Mark Potter

Roane County High School recently announced the names of 22 seniors on the superlative list for 1964.

Mark Potter, son of Marcus B. Potter, Uranium Chemistry, took "Mr. Citizen" title at the election. Selections were made by vote of fellow class-men.

The Potters live in Kingston.

Security is YOUR responsibility.

W.L. Jones Retires

Continued from Page 1

the future, and the big lawn at home will get mowed more often now. "I'm saving a little time for fishing, too," Jones smiled. "I'll find plenty to keep me busy."

The retiring Jones has more than the necessary 10 years company service to qualify for benefits under Union Carbide's Pension Plan.

He takes with him the very best wishes of all fellow employees for a happy and fruitful retirement.

D'Arcy Is Named UCC Director Of Purchases

Albert J. D'Arcy has been named director of purchases of Union Carbide Corporation, according to a recent announcement from Hermann K. Intemann, vice president of the corporation. D'Arcy, who has been with Union Carbide since 1940, holds an ME degree from the Stevens Institute of Technology, and an MBA from Columbia University. Union Carbide's annual expenditures for materials, equipment, and services total more than a half billion dollars.

VERSATILE WATER

In a 'swimming pool' type reactor, such as those operated at Oak Ridge National Laboratory, the pool water acts as a radiation shield, coolant and neutron moderator.

Turtles Take Over Bush Bowling Lead

The Bush Leagues' head-on meeting between the league leading Seven Sixties and the second place Turtles has proved momentary disaster for the former. The Turtles took four big points to take over the league's top spot in the only sweep of the week. In other action, three point victories were scored by the Hi Balls over the Beavers, Rusty-Five over the "66" Raiders, Dry Hides over the Rollnicks and the Rollmasters over the Outcasts.

Individual honors went to Herb Reynolds, Outcasts, with a 211 scratch singles, 250 handicap singles and a series handicap of 643. J. W. Halsey, Rusty Five, equaled the league season high by ripping the boards with a 575 individual scratch series.

STANDINGS

Team	W	L
Turtles	21	11
Seven Sixties	20	12
Hi Balls	19	13
Rusty Five	19	13
Dry Hides	18	14
Rollmasters	18	14
Rollnicks	14	18
"66" Raiders	13	19
Outcasts	12½	19½
Beavers	5½	26½

Management Group Has UT Seminar

The Knoxville Chapter of the Society for the Advancement of Management announces a one-day seminar for tomorrow, Thursday, March 26. The seminar carries the theme "What Management Expects of First-Line Supervision." The all-day affair will take place at the Deane Hill Country Club, Knoxville.

The University of Tennessee's Dr. G. Whitlock will open the study on "Motivation." Other topics and speakers will be ORNL's Robert H. Lafferty who will talk on "Clear Writing." Millers' Byrl Logan will discuss "How to Conduct a Good Meeting." ORNL's J. A. Barker has as his subject "Employee Relations." American Zinc's Harold Thompson will speak on "Safety." The Tennessee Valley Authority's Joe Erbenbach will discuss "Employee Development." Knoxville Utilities Board's Mark Whitaker has as his subject "Effective Planning" and Rohm and Haas's Norman Harberger discusses "Performance Evaluation."

Details on the seminar may be obtained from R. F. Pruett, extension 6731.
